Sonny's offspring are all real cowy with good minds and dispositions – easy to break with a lot of heart and stamina. All of his colts we've broke have made excellent ranch horses. Several have excelled in the arena.

"Annie" is a 5-year-old mare, moderate sized, should have 50 to 60 rides on her by sale day, I've been riding her outside checking pastures this summer and have roped a couple calves on her in the pasture. Should be able to go many directions with this nice mare.

A nice big four-year old gelding. He was started by Caleb Kenner last winter. Very athletic – will make a good arena or ranch horse. Plus, he has a lot of chrome to show himself off!

This six-year-old mare is one of the few offerings left sired by our "RESERVATIONS FOR ONE" stud, as "Sonny" had to be put down this summer due to age. Vince Connelly rode this mare last fall and our grandson has been using her this summer. She travels out good, really wants to watch a cow, and is "quick as a cat". She'd be a good barrel horse or an excellent calf roping horse for an experienced rider due to her exceptional athletic ability!

A cute filly with some great cutting horses in her pedigree. Bred well enough to compete in the show ring and later be a brood mare.

A nice started young gelding with a big hip and plenty of chrome. "Socks" was started last fall and has been used to check pastures and track cattle in the arena. Take him any direction you want.

You know you are a teacher if when out in public you feel the urge to snap your fingers at children you do not know and correct their behavior.
